PROJECTS IN DEVELOPMENT

Academic Management & Educational Itineraries Platform

Academic Capstone Project | May

fevereiro
2026 -
Presente

Developed an integrated web platform focused on academic management and student learning path customization for high schools. Centralized the management of grades, documentation, and elective courses, optimizing real-time communication flows between pedagogical coordination, the registrar's office, students, and guardians.

Artistic Portfolio Web Platform

Freelance/Personal Project | Feb

abril
2026 -
Presente

Created and deployed a complete web platform dedicated to building the digital presence of a client in the artistic sector. Responsible for visual identity design, information architecture, front-end development, and hosting environment setup for production.

PROFESSIONAL EXPERIENCE

Freelancer

Freelance Graphic Designer & Web Designer

fevereiro
2023 -
julho 2025

- Operated autonomously across the entire lifecycle of design and visual identity projects.
- Managed clients from the initial briefing and expectation alignment to final delivery and post-sale support.
- Focused on developing logos, corporate visual identity manuals, promotional materials (business cards, invitations), and digital assets (institutional and advertising banners), ensuring aesthetic consistency and alignment with the client's brand strategy.
